*November 2021*

Corvid 19 may have changed PbP. But it has not reduced our productivity.

## A year in review

As of November we have donated 694 quilts including 34 Halloween and 59 Christmas quilts.

In April we started a modified Bee at the church's fellowship hall, meeting every other month. Modified meaning no sewing machines or ironing boards. Shorter hours 9-11:00, show-n-tell starting at 10:30. The set up and clean up goes much faster. The area is large enough to social distance. Most, if not all, have had at least one vaccine.

Prior to April we would pick-up and drop off what was needed at my front door. We missed visiting with

each other and no show-n-tell. We have had 24 individuals attend the modified Bees. (not all at once). In August we stated attending monthly.
