

PETBED MOM

Requirements and Responsibilities

- * Transport pre-stitched pet bed covers and/or fabric that can be used to stitch covers, to and from, the bee site. Fabric will be provided through donations received from the community.
- * Any bee where pet bed covers and/or fabric is available also provide a supply of printed copies of 'Making Shelter Pet Beds Guidelines'. Those guidelines can be found under the 'Our Community' page of the Peace by Piece Quilters website. If you are unable to print copies of the guidelines let Wanda know and she will provide you with a printed supply.
- * Store pet bed covers and donated fabric. Storage has to be obtained by the pet bed mom as space is not available at the bee site. The space required is equal to 2 file boxes.
- * Collect and remove finished pet beds from the bee site on bee days.
- * Deliver the collected pet beds to Lost Our Home Pet Foundation located at 2323 Hardy Dr. in Tempe, just south of Broadway Rd.
- * Notify the editor of this newsletter at info@creativequilting.biz one week prior to all bees with information about your drop off and pick up plans for that bee. Your information will be in that months newsletter so pet bed makers will know if you are accepting finished beds and if covers and/or fabric will be available for them.

Information shared should include:

1. Will you be picking up pet beds that month. If someone else will be picking them up for you, please include that info in your message.
2. Will pet bed covers and/or appropriate fabric be available for the makers.
3. If you need printed copies of the 'Making Shelter Pet Beds Guidelines'.
