

This is a photo of how blankets are placed into the patient rooms before a patient is admitted. They usually know general age, boy or girl... and then find a blanket that can match their age and style of blanket. A stuff animal is placed on their bed when they are available... as well as Handmade decorative pillow case and a bedside activities gift bag (all items, when they are available).

We place all these items into their clean equipment room and stock and restock 1-2 times a week. As you can imagine we go through a lot of blankets and items with our patient turnover.

We thank you all for your time and creative heartfelt touch that goes into each one of these blankets. All ages (0-18) benefit from a more cheerful room when we all know they are not too cheerful being here.

Thank you for all your contributions for the past 8-10 years. I have been in contact with AZ Blankets for Kids for about this many years!

Thank you!
